

# Adaptive Sports Equipment Log

This Excel workbook is designed to help adaptive sports programs track the **condition, service history, and safety status** of their equipment. It ensures that each item is properly maintained, monitored, and ready for safe use by participants of all abilities.

 [View the Workbook](#)

## Features

- ✔ Logs **equipment details** and **type**
- ✔ Tracks **last service date** and **upcoming maintenance**
- ✔ Records **equipment condition** (good, worn, damaged, etc.)
- ✔ Flags **unsafe equipment** and describes what's wrong
- ✔ Helps programs maintain **compliance and safety standards**

## Key Columns

Column Name	Description
Equipment Name/ID	Unique name or identifier for each item
Type	Type of adaptive equipment (e.g., sports chair, bike)
Condition	Current status (Good, Needs Repair, Unsafe, etc.)
Last Serviced	Date of most recent maintenance or inspection
Next Service Due	Recommended future maintenance date
Safety Notes / Issues	Notes on damage or unsafe components

Service Needed	Description of required repair or replacement
----------------	---

## Use Cases

- Adaptive sports and recreation programs
- Hospital-based therapeutic recreation
- Community sports leagues
- VA adaptive athletics and Paralympic support teams

## Customization Suggestions

- Add drop-downs for consistent condition labels
- Apply **conditional formatting** to highlight overdue service or unsafe equipment
- Track **assigned staff** for repairs and inspections

## About the Creator

Created by a recreational therapy professional transitioning into data analytics. This tool reflects a real-world use case in equipment safety management and operational tracking for inclusive wellness programs.
